
RotoProne®

A comprehensive system that helps simplify prone therapy

It is well known that some critically ill, immobile patients benefit from being placed in the prone position. As a result, an increasing number of physicians are adopting this practice. The RotoProne® Therapy System is a comprehensive system that provides an efficient and effective way to prone patients.

RotoProne is not just another medical device but includes an interconnected network of Arjo resources that support our customers caring for critically ill, immobile patients.

Clinical Education

Our Clinical Education team of Registered Nurses and other licensed health care professionals provide education on topics such as Early Mobility in the ICU, Nursing Considerations for Prone Positioning, Skin Care Guidelines, and assistance with protocol development.

Clinical Placement Support

In most geographic locations, Arjo offers 24/7 clinical placement support either remotely or in person.

Service Consultant Support

Arjo has a team of Certified RotoProne Service Consultants that will deliver the RotoProne and assist with product in-services, upon request, to ensure that clinical staff is comfortable with the features and functions of RotoProne.

Technical Support

Should your staff have any RotoProne related technical questions or concerns, we are just a phone call away.

Product Training

Arjo Account Managers, Service Consultants, and Critical Care Consultants provide product training to ensure that clinical staff is knowledgeable about how to use the features and functions on RotoProne.

** Please check with your local sales representative if the product is available for sale in your country.*

At Arjo, we are committed to improving the everyday lives of people affected by reduced mobility and age-related health challenges. With products and solutions that ensure ergonomic patient handling, personal hygiene, disinfection, diagnostics, and the effective prevention of pressure injuries and venous thromboembolism, we help professionals across care environments to continually raise the standard of safe and dignified care. Everything we do, we do with people in mind.
